Maria Paz Fretes Perrens

mpfretes@gmail.com | Asunción, Paraguay | Portfolio

Graphic designer with over 10 years of experience in branding, social media design and management, BTL design, among other areas. I currently specialize in UX/UI for video games, web and mobile platforms, and internal systems.

Work experience

Pre-sales Analyst

CLT SA · Asunción, Paraguay

August 2026 – Present

- I carry out functional analysis of project requirements and business needs.
- I develop quoting and project estimation flows.
- I create and structure technical backlogs.
- I break requirements down into estimable technical tasks.
- I design high-fidelity prototypes as part of commercial proposals.
- I define the scope of projects and the proposed digital solutions.
- I prepare project estimates and final quotes.
- I develop solution proposals for clients.
- I work with design, business and development teams throughout the pre-sales process.
- I use AI-based tools to optimize requirements analysis, prototyping, estimates and proposal development.

UX/UI Designer

CLT SA · Asunción, Paraguay

December 2024 – July 2026

- Worked with functional teams to define requirements, use cases and flow diagrams.
- Designed interface graphic assets, screens, mockups and style guides.
- Ensured user-centered design principles were applied.
- Worked in collaboration with development teams and different technologies.
- Used component libraries and artificial intelligence models to optimize and enhance the design process.

Brand graphic designer

CONMEBOL · Asunción, Paraguay

April 2024 – July 2024

- Designed user interfaces (UI) for web platforms and mobile apps.
- Designed marketing and visual communication materials for tournaments and sporting events.
- Designed signage and wayfinding materials for events.
- Developed graphic pieces and signage for stadiums during sporting events.
- Created digital graphic assets for tournament communication and promotion.
- Designed printed materials, including invitations, brochures and other communication pieces.
- Adapted visual assets to different formats, spaces and production requirements.
- Applied CONMEBOL's visual identity guidelines to digital, printed and physical materials.
- Prepared and adapted final artwork for the different communication and production needs.

UX/UI Designer

Posibillian Tech · Asunción, Paraguay

October 2021 – November 2023

- Developed the visual identity and branding for a mobile game project.
- Application of user-centered design principles.
- End-to-end definition and development of the game's design system.

- Design of interface graphic assets and screens.
- Creation of low and high fidelity prototypes and mockups.
- UX research to analyze and compare competitors, and to identify successful features.
- Definition and application of player-experience-centered design principles.
- Collaboration with the art and development teams.
- Gathering and analyzing feedback from beta testers to improve features and the gameplay experience.
